

Log Into Your Fusion Account as an AT&T / FirstNet User (SNAP Authentication) SonimXP5+

Important: Before proceeding, determine if your device has a FirstNet or AT&T SIM. If yes, you should log in via SNAP authentication, which allows fast, automatic user authentication to the Fusion service by reading SIM data.

Before you begin, confirm that your organization administrator has assigned you a Fusion license and created your account. Once your setup is complete, follow the steps below to log in using AT&T / FirstNet SNAP Authentication.

1. Access the Fusion app on the device. Then, disable the Wi-Fi for an easy and automatic log in experience.

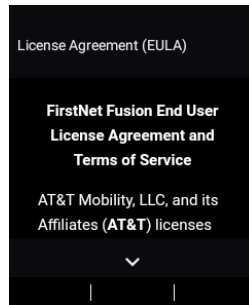

Access the Fusion app

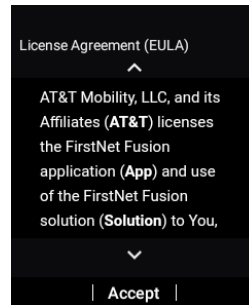

Continue

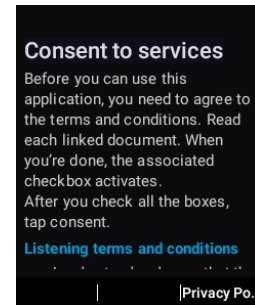

- The device connects automatically reading the information from the SIM of the device for login. After the login, you are redirected to the EULA page. Read and Consent to Service.

- Next, the app asks for permissions to record audio, make, and manage phone calls. Select **While using the app** and **Allow**.

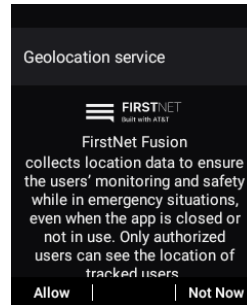

Allow while using the app

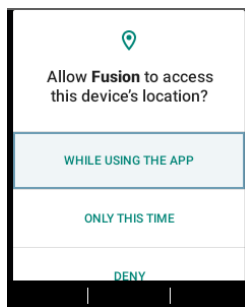

Allow

- Next, the app asks for permissions to collect data to ensure the users' monitoring and safety while in emergency situations. Select **Allow**.

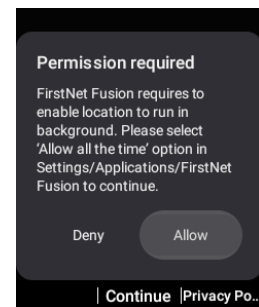

Allow

- The next step is to allow permission for location access. Select **While using the app**, then select **Allow**. This ensures the device can be always located by other Fusion users with the appropriate permissions.

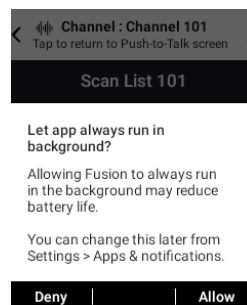

While using the app

Allow

- The last step is to make sure the app always runs always in the background. Select **Allow**.

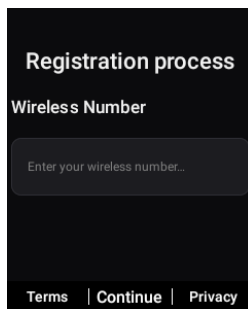

Allow

Allow any other permissions requests to maximize the features of Fusion.
